Dear campus partners,

On behalf of the University of Utah Career Services Team, I want to express our appreciation to all campus partners within the University Community for your continued support and collaboration. Our Career Services team is looking forward to the upcoming year and we invite you to engage us in the work you are doing to promote student success!

In this inaugural edition of the Career Services Newsletter we highlight some of the impactful programs and resources that we hope will provide you with an understanding of the work we do with students in developing greater self-understanding, expanding awareness of career opportunities, and ultimately the realization of meaningful careers!

Career Services programs and services are not aimed at only students and alumni. Our staff also serves as a resource for our many colleagues on campus and can provide a wide range of information and services to help fulfill the unique role you have in fostering student success. We recognize that our campus partners are key to engaging students in the career planning and decision making process, and students often first become aware of Career Services resources through a department touch point. Every university major has a Career Services coach aligned with their students. These Career Coaches serve as a resource for faculty, staff, and academic advising professionals across the campus. Career Coaches can assist you in providing career education programming, linking your department to industry experts, offering guidance in shaping experiential learning opportunities such as internships, and help creating collaborative resources and links to Career Services.

Just few reasons to help students find Career Services (Source NACE, National Association of Colleges and Employers):

- 80% of students who reported having full-time jobs before graduation used a Career Center.
- New grads who utilized the career center or the career center website during their senior year and applied for jobs had an offer rate that was 1.3 percent higher than respondents who did not visit the career center or its website and applied for jobs.

If you want to be a bridge for your students and Career Services, here are some simple things you can do to make us more accessible to your students:

1. Reach out and partner with your Career Coach and create an action plan for students in your department.

2. Place a link on your Departmental webpage to Career Services UCareerPath our online database for off-campus jobs and interview schedules. (Faculty/staff may gain access to this database by contacting our office).

3. Ask a Career Coach to speak to your class/department/organization.

We hope you will consider Career Services your ally in the academic and professional growth of your students. We are committed to working in partnership with you to ensure that students have the best resources and information available in their career planning and job search strategies.

Thank you,

Stan Inman

Boot Camp

Will you be working with students who are looking for a job post-graduation? 7,000 other graduating seniors are also looking - help prep your students with the necessary tools to rock their job search. Our crash course will give students the skills to avoid getting lost! Learn how to job search, network, prepare a resume, interview and negotiate salary.

Dates:
October 27, 2015 from 4:00 PM - 7:00 PM in SSB 380
October 28, 2015 from 5:00 PM - 8:00 PM in SFEBB 7170

LEARN VALUABLE JOB SEARCHING SKILLS AT:
★ ★ ★ UNIVERSITY OF UTAH ★ ★ ★

SENIOR BOOT CAMP
Crimson Internships are unique exploratory internship opportunities available to sophomore and junior students to help bolster their professional experience with desirable and highly visible companies.

How Does it Work?
Interested students apply directly to the program through an online application and those who meet the program requirements are invited to participate in a roundtable Open House Event with participating employers. This event gives students the chance to meet hiring employers and learn more about the individual internship opportunities available. After the event students let the program know which internships they are interested in interviewing for and they are connected with those employers. Employers then interview and hire interns per their specific organizational selection process. Students can participate in the program’s recruiting cycle during fall and/or spring semesters.

Application Deadlines
Fall - Online Application Open Monday, September 28, 2015 & Close Wednesday, October 21, 2015
Spring - Online Application Open Tuesday, January 12, 2016 & Close Tuesday, February 9, 2016

Encourage students to visit http://careers.utah.edu/crimsoninterns/ to learn about additional deadlines, program requirements, and which employers are participating this semester.

Fall 2014 Trek Participants

“I was lucky enough to be selected to go on the 2014 spring break advertising agency trek, and I could not have spent my spring break any better! The trek connected me to companies that I have been very interested in working for, and it introduced to new ones I otherwise wouldn’t have known about. Not only was I able to get a real feel of the different office cultures, I was able learn about their work ethic, and values. I can also say that it helped me to confirm I’m in the right industry and opened my eyes to a variety of jobs in my chosen field. It was also great to meet my peers with similar interest and hear about their career stories, and I even ended up creating meaningful networks with them through LinkedIn. Lastly, this trek wouldn’t have been the same without the great career counselors’ involvement! My resume has never looked so good! Not only were they extremely helpful, but were really fun to hang out with!”
- Katie Steedman, 2014 Trek Participant

Fall 2015 Treks
Join us October 12th and 13th

Chemical Engineering  International Careers  Math & Physics
UCareerPath is students’ exclusive database for all things career! With 4 exclusive job search engines, UCareerPath helps students find positions locally, nationally, and internationally. Students can also make appointments with their Career Coach, apply for on-campus interviews, practice interviews through our digital mock interview portal, and view upcoming events.

How you might use UCareerPath:
- Send your students jobs that are specific to their career interests/fields
- View jobs, employers, and employer contacts
- Gain access to Careershift, GoinGlobal, NACElink, and Jibber Jobber
- View helpful handouts in the Resources tab
- Login to UCareerPath with students to show them how to make an appointment with their counselor and access the resources

In addition, please let us know how we can help you share this resource with your students. The following options are available for customization: custom website banner, custom jump link, and a tailored job feed.

In partnership with: Wynbi & Alumni Association
The mission of the Career Council is to provide opportunities for students that will help them pursue their careers, secure employment, create valuable networking opportunities, and increase student to student outreach on behalf of Career Services. Designed for entering students, our goal is that all students on the council will finish the academic year with a professional experience related to their career interests.

If you have a student who would like to participate, please have them email careerambassadors@sa.utah.edu.

Women, Work and the Will to Lead
Please join us the 1st Wednesday of each month at 12 PM to gain insights and skills to help you grow professionally.

Power + Influence
Nov. 4th - 12 - 1PM in SSB 350
Prove It Again
Dec. 2nd - 12 - 1PM in SSB 350

IN PARTNERSHIP WITH THE WOMEN’S ENROLLMENT INITIATIVE & CAREER SERVICES
Every Fall, we bring 20 employers to campus to meet our student leaders in order to broaden our students' professional network and increase their networking skills. If you have a student leader who you would like to participate, please email careerambassadors@sa.utah.edu.

Here at Career Services, our goal is to provide all students with the tools and skill set they need to navigate their professional careers. We recognize that due to associated financial costs, these tools may be out of reach for some students. The purpose of the Suit Up award is to recognize highly motivated third or fourth year students who have demonstrated financial need. This program will assist these students of exceptional promise with the exorbitant cost of purchasing business attire for their upcoming career. Please join us in achieving this goal by nominating students to receive professional attire. Nominations will be due in January 2016 and materials can be found online at http://careers.utah.edu/faculty.

Spring 2015 Recipients
Career Services prepares University of Utah students and alumni to achieve their career and professional goals. We do this through individualized career planning, impactful employer interactions, alumni engagement, and internship coordination in partnership with academic departments and industry stakeholders.

Mission

Vision

Alumni: Create a lifetime relationship of connectedness to the University of Utah from alumni and the community.

Employers: To be the premier collegiate recruiting destination for employers who offer quality opportunities for our students and alumni.

Academic Partners: Create a career culture at the University of Utah where every faculty and staff member engages in career development.

Students: Create a world where all students see the tangible future because they understand and engage in the career planning process – early and often.
