A. T. Still University

About A. T. Still University:
A. T. Still University is the founding school of osteopathic medicine. We offer osteopathic medicine (D.O.) programs, as well as other Doctorate-level degree programs in audiology, dental medicine, physical therapy, health sciences, and health education. We also offer Masters-level degree programs in athletic training, biomedical sciences, occupational therapy, physician assistant studies, human movement, geriatric health, health administration, health education, and public health.

American University of Antigua- College of Medicine
www.auamed.org

About American University of Antigua- College of Medicine:
The ANATOMY of your DREAM-AUA College of Medicine is committed to helping you achieve your goal of becoming a licensed physician in the United States and Canada. Our U.S. modeled medical program is the 1st and only hospital-integrated medical school in the Caribbean.

American University of the Caribbean School of Medicine
www.aucmed.edu

About American University of the Caribbean School of Medicine:
American University of the Caribbean School of Medicine is committed to providing a high-quality, internationally recognized program of medical education. With a highly regarded faculty, impressive USMLE passage rates, an accomplished network of alumni, and strong partnerships with residency placement sites across the United States, AUC is a place where new latitudes of medicine intersect every day.

American University- School of International Service
american.edu/sis

About American University- School of International Service:
The School of International Service (SIS) is the largest school of international relations in the United States. Comprised of over 65 full-time faculty members spread over eight fields of study, SIS encourages applications from students with a wide variety of backgrounds. There is no typical SIS student except each is committed to an international career and public service, has international experience, knows a second language, and possesses a spirit of inquiry and involvement.
About Argosy University - Psychology/Education/Business:

At Argosy University, our passion is teaching and learning. We develop professional competence, provide opportunity for personal growth, and foster interpersonal effectiveness. Students succeed because our university community engages and supports them.

Degree programs include: Marriage & Family Therapy, Mental Health Counseling, Forensic Psychology, Education and Business.

Brigham Young University - Chemistry & Biochemistry

www.chem.byu.edu

About Brigham Young University - Chemistry & Biochemistry:

BYU's Department of Chemistry and Biochemistry offers MS and PhD degree programs in chemistry and biochemistry. While these programs do require coursework, they are primarily research-based. Research groups often include cross-disciplinary collaboration with faculty and students in biology, botany, engineering, and physics, as well as with other areas in chemistry. See the Department of Chemistry and Biochemistry website for information on faculty research and the state-of-the-art facilities available for conducting high quality research. Our programs prepare students for professional careers in industry, government and educational institutions.

Brigham Young University - College of Nursing

nursing.byu.edu

About Brigham Young University - College of Nursing:

Thank you for your inquiry regarding the Brigham Young University College of Nursing graduate program. We are enthusiastic about the educational opportunities here and hope they will interest you as well. We are constantly reviewing and updating our courses to keep current with present trends in nursing.

We currently offer a Family Nurse Practitioner Degree. We also offer a Post-Masters Family Nurse Practitioner degree for those who have already received a Masters degree in Nursing. In order to facilitate student needs, our program runs continuously and students are admitted into Spring Semester. The application deadline is December 1st. You may apply over the world wide web by using the following internet address: http://www.byu.edu. Select the following links: "Campus", "Colleges and Schools", "Graduate Studies", "Admissions", "Apply online".

We hope our program interests you and that you will apply for admission.
About Brigham Young University - College of Physical & Mathematical Sciences:
The BYU College of Physical & Mathematical Sciences offers graduate programs in the following department disciplines:

1. Chemistry & Biochemistry
2. Computer Science
3. Geological Sciences
4. Mathematics
5. Mathematics Education
6. Physics & Astronomy
7. Statistics

About Brigham Young University - Graduate Studies:
BYU offers approximately 26 doctoral program and 66 masters programs. Applications are available online. Each program has their own application deadline. Please check our website for more information specific to your program of interest.

About Brigham Young University - Law School:
Law School

About Brigham Young University - Master of Public Policy:

St Georges University- Schools of Medicine & Veterinary Medicine

About St Georges University- Schools of Medicine & Veterinary Medicine:
Since its inception in 1977, St. George's University has developed from a Caribbean medical school to a world-class, international university comprised of many schools and programs. With its breathtaking and purpose-built campus, dedicated faculty, vibrant research institute and UK study abroad options, students can not only become medical doctors or veterinarians, but can also pursue graduate degrees and international research experience in science, public health or business.
The Dartmouth Institute for Health Policy and Clinical Practice
www.TDIeducation.dartmouth.edu

About The Dartmouth Institute for Health Policy and Clinical Practice:
The Dartmouth Institute for Health Policy and Clinical Practice (TDI), Center for Education offers two, one-year, master's degree programs: a Master of Science (MS), and a Master of Public Health (MPH). The overarching educational goal of the graduate degree programs is to prepare leaders in the measurement, organization, and improvement of health and health care. Both Masters degree programs build upon a rigorous core curriculum that provides an understanding of the challenges facing the U.S. health care system and a firm grounding in the skills required to evaluate and improve public health and health care. Students will receive a foundation in epidemiology and biostatistics, outcomes research, health decision making, health economics, and health care improvement. Students enter this program with a wide range of academic backgrounds with majors including, English, Economics, Psychology, History, Math, Geography, Sociology, Biology, Chemistry, and a host of others.

The Institute of World Politics: A Graduate School of National Security and International Affairs

About The Institute of World Politics: A Graduate School of National Security and International Affairs:
The Institute of World Politics is a graduate school of national security and international affairs, dedicated to developing leaders with a sound understanding of international realities and the ethical conduct of statecraft, based on knowledge and appreciation of the principles of the American political economy and the Western moral tradition.

IWP offers three M.A. degrees in Statecraft and National Security Affairs, Statecraft and World Politics, and Strategic Intelligence Studies.

The Ohio State University College of Optometry
http://optometry.osu.edu

About The Ohio State University College of Optometry:
The Ohio State University College of Optometry values and supports diversity among its faculty, students, and staff. We promote an atmosphere of mutual respect and inclusion within our classrooms, laboratories, and clinics. Our faculty members are recognized internationally for their academic credentials, real-life experience, and cutting-edge research. We share the resources of the most comprehensive health sciences center in the nation, and provide a well-rounded learning experience that will fully prepare you for optometric practice both today and in the future.

You will complete a comprehensive business management course sequence throughout the four year curriculum, taught by Ohio State Fisher College of Business faculty members and community practitioners, that will prepare you for the 'real-world' clinical and business aspects of operating a successful optometric practice. We also offer the opportunity for outstanding students to participate in a four-year combined OD/MS program and a five-year combined OD/MPH program, the first of its kind in the U.S.
The University of St. Augustine

About The University of St. Augustine:
The University of St. Augustine is a Physical and Occupational Therapy graduate institution. We offer entry-level graduate education and degree programs for already practicing clinicians: Transitional Doctor of Physical Therapy, Transitional Doctor of Occupational Therapy, Doctor of Education, Continuing Education Seminars and Certifications, as well as a Residency and Fellowship program.

Thunderbird School of Global Management - MBA - Global Management, MS in Global Management and MA in Global Affairs and Management

www.thunderbird.edu

About Thunderbird School of Global Management - MBA - Global Management, MS in Global Management and MA in Global Affairs and Management:
Founded in 1946, Thunderbird is the first and oldest graduate management school focused exclusively on global business. About University of Utah - Department of Physical Therapy:
The University of Utah Doctor of Physical Therapy program is ranked among the top 10 percent of programs in the United States. The program mission is to educate and prepare students for the future—to help them be the best physical therapists possible. We treat students as professionals, giving them respect and requiring personal accountability. We are fully accredited by the Commission on Accreditation in Physical Therapy Education. The program admits 42 students each year and has a student body of 126. Courses cover 9 semesters over 3 years and leads to a Doctor of Physical Therapy Degree.
Pass rate on the licensure exam for first time takers is 96% (3-year average). Employment rates are 100% as reported by graduates actively seeking practice positions (3-year average). Full-time faculty includes ABPTS specialists, master clinicians in neurological rehabilitation, orthopedic and sports, infectious disease, burns and wound care, and education.

About University of Utah - Division of Occupational Therapy:
As the only accredited occupational therapy program in Utah, the Division of Occupational Therapy offers a number of compelling advantages.
Our master's program has earned strong national reputation as a leading-edge program that offers the best and the newest in curriculum, technology and research. What better way to make a living than to help people of all ages learn or reclaim skills for the job of living?
University of Utah - Neuroscience Program
http://neuroscience.med.utah.edu

About University of Utah - Neuroscience Program:
The Neuroscience Program Core Curriculum aims to provide a rigorous academic base from which students can pursue studies in any neuroscience discipline. The core curriculum includes didactic sessions designed to provide a basic theoretical understanding of the electrical properties of the cell, development of the nervous system, synaptic transmission and basic cognitive psychology. Students learn modern techniques in neuroscience by conducting experiments during four half-semester laboratory rotations. The combined didactic sessions and laboratory rotations culminate in a neuroscience "boot camp" in which students learn electrophysiological techniques from acknowledged experts in the field. The neuroscience community meets twice a year at local resorts in the Wasatch Mountains to hear talks from specialists and to discuss selected topics of interest. We believe this graduate program competes with the finest programs offered in the country today.

University of Utah - Public Policy, Public Administration, and International Affairs
http://www.cppa.utah.edu/academic.html

About University of Utah - Public Policy, Public Administration, and International Affairs:
The Center for Public Policy & Administration is engaged in academic, research and management development programs that are relevant to the people we serve and the future of our community. The Center’s outstanding faculty and staff have years of experience in public service and are focused on developing the leaders who will make important administrative and policy decisions for Utah, the Intermountain West--and beyond.

We offer graduate degrees in public administration, public policy and international affairs, with an emphasis on leadership, and the legal and ethical foundations of public service.

University of Wyoming College of Law

About University of Wyoming College of Law:
The University of Wyoming College of Law, founded in 1920, is a member of the AALS and is accredited by the ABA. An excellent faculty of 22 full-time professors and several highly qualified lecturers instructs a student body of approximately 225. The limited size of the student body and the favorable student-to-faculty ratio create an atmosphere of friendliness and informality, and students enjoy a degree of access to faculty that students would rarely find at a larger institution.

The College of Law is located on the campus of the University of Wyoming in Laramie. The university, the only four-year institution of higher learning in Wyoming, comprises seven colleges, a graduate school, and several organized research units. The university has a student body of 13,000 and boasts of being one of the best-valued schools in the nation.

Utah State University - School of Graduate Studies
www.usu.edu/graduateschool/

About Utah State University - School of Graduate Studies:
Utah State University offers excellent opportunities for graduate studies. Graduate work can increase research competencies, enhance career opportunities, and improve professional knowledge and skills. Opportunities are particularly promising for women in science and engineering, and for ethnic minority graduates. Graduate degrees are offered by 40 departments. Included are 95 master's programs, 38 doctoral programs, as well as six educational specialist and one civil engineer degree. Nationally and internationally known research units support many of the graduate degree programs, and graduate students are often actively involved as research assistants as well as teaching assistants.

Utah Valley University MBA
www.uvu.edu/woodbury

About Utah Valley University MBA:
The Woodbury School of Business is pleased to be accepting applications for the Master of Business Administration Program at Utah Valley University. Fall 2010 will see the initial course offerings of the AACSB-accredited program. A cohort of 40 business professionals will prepare to succeed in the competitive global business environment by enhancing their analytical, problem solving, decision-making, and leadership skills. After completing core course requirements, cohorts will choose an area of emphasis: general management or accounting.

Classes will be held in the Woodbury School of Business’s newly refurbished MBA classrooms on Friday evenings and Saturday mornings in four-hour blocks, an ideal schedule for enterprising professionals. Experienced faculty members may link assignments to actual employment scenarios, providing relevant, practical experience. Each course will run for eight weeks, five of which will have scheduled weekend meetings, opening the other weekends for preparation and assignment completion. A two-week break occurs between classes and holiday scheduling is minimal.
About Weber State University - Master of Business Administration:
The MBA program at Weber State University is designed specifically for working professionals. The program offers:

* Quality: Our outstanding faculty and innovative curriculum make the Goddard School MBA the program of choice for working professionals on the Wasatch Front.
* Flexibility: Switch between full-time and part-time study at any time.
* Accessibility: The intimate classroom environment is supplemented by the use of online course delivery to enhance instruction and reduce classroom time. Courses are taught one night per week over an eight-week period at the Weber State University Davis campus in Layton, conveniently located off I-15.

Quality, Flexibility, Accessibility. The Goddard School MBA advantage at Weber State University.

About Weber State University - Master of Criminal Justice:
Advance your career with a Master of Science in Criminal Justice degree, offered through WSU’s College of Social & Behavioral Science. Attend classes with other professionals and students taught by experts with real-world criminal justice experience. Our graduates are serving as leaders in the criminal justice field across the country. Classes are taught in the evening to accommodate those with daytime schedules. The program is designed to be completed in two years or less.

About Weber State University - Master of English:
The Master of Arts in English is designed for students who are employed full-time. The program welcomes students who wish to work in an innovative and creative program. Classes are offered at the Weber State University campuses in Layton and Ogden in the evening and during the summer. You can design a program to meet your individual interests:

* classroom teaching
* professional advancement
* in-depth literature study
* preparation for additional graduate study
About Weber State University College of Education:

The Master of Education in Curriculum and Instruction strives to enhance the scholarly knowledge, skills and professionalism of educators working in schools, business, industry and higher education. Students may obtain an elementary or secondary teacher license while pursuing the MEd degree.

The Master of Science in Athletic Training Program provides you with knowledge and skills in the prevention, evaluation, treatment and rehabilitation of musculoskeletal injuries and general medical conditions. This entry-level program is specifically designed for students who have already obtained bachelor's degrees in allied health or exercise science; however, students with bachelor's degrees in other fields may enter the program after satisfying prerequisite course work.

The Law School also offers six summer study abroad programs in China, France, Israel, Mexico, Spain and Sweden.

Willamette University MBA

About Willamette University MBA:
Willamette's Full-Time MBA programs are specifically designed to prepare students for their first professional career position, career change or advancement. The Early Career MBA is designed for recent college graduates and applicants with limited work experience who are seeking their first professional position or career change. Previous work experience is not required.

Willamette's Early Career MBA emphasizes experiential learning or "learning by doing." Internships, consulting projects, case studies, simulations, student investment fund, ethics in business awards, and the PACE Projects (where teams of students create and operate real organizations) build the knowledge and experience employers value.
